

Standing at the head end of the cot, with the cot lid closed, the hinges towards you and with the retaining lips underneath, position the lid so that the handle is placed to the cot's inside edge.

Slide the lid onto the cot ensuring that the retaining lips of the lid are located underneath the outer edge of the cot allowing the user to slide the lid to the foot end of the cot.

With the cot lid located at the foot end of the cot, the upper most section of the cot lid can be folded back towards the user and lowered gently into position.
