Dear Officer,

**AlcoTrue M Breathalyser provides rapid and accurate
determination of breath alcohol concentration**

The AlcoTrue M is a professional breathalyser for accurate determination of breath alcohol concentration which rivals its competitors. The AlcoTrue M is designed for diagnostic use e.g. hospitals and rehabilitation clinics.

The key features include:

- Fast warm-up time < 6 seconds.
- Rapid, precise and reliable measurements, even at sub-zero ambient conditions.
- This high spec product provides up to five measurement modes, ideal for any situation; active mode, fast mode, passive mode, scan mode, mouth alcohol mode.
- Also available with a portable printing system.

Please find enclosed further information regarding the AlcoTrue. Should you wish to discuss this in further detail please do not hesitate to contact a member of our sales team on (01535) 634542, between the hours of 9:00am and 5:30pm.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Catrin Hollings'. The signature is fluid and cursive, with the first letter 'C' being particularly large and stylized.
