Dear Ms Harrison,

A simple approach to Carbon Monoxide Breath Testing

Viamed are proud to announce the release of the CO Screen Carbon Monoxide monitor into its portfolio.

The CO Screen is for use by Emergency Services and First Responders to quickly and accurately determine the level of Carbon Monoxide in a patient's exhaled breath. Provided with SafeBreath mouthpieces eliminates the potential risk of cross-infection as the filter prevents transmission of more than 99% of bacteria and viruses.

Please find enclosed a leaflet detailing the CO Screen, should you wish to discuss this in further detail please do not hesitate in contacting a member of our team on 01535 634542 or email sales@viamed.co.uk

Yours sincerely

Catrin
