

# VIA MED

British Manufacturer  
and Supplier for 40 years

Established in 1977, Viamed is a privately owned company that designs,  
Manufactures and distributes medical products.

Primarily for general, critical patient care, paramedic & emergency  
Services applications, other areas include  
General Practitioners, Dental and Veterinary Surgeries...

Sales in the UK are conducted through our dedicated sales team and  
Internationally through a network of independent distributors.

Viamed is committed to providing quality and competitive products,  
whilst offering fast and effective service. As part of this commitment,  
products are CE marked and are supplied in accordance with stringent  
general and medical quality standards:  
ISO 9001, ISO 13485.

# Oxygen Monitoring

including Teledyne and Maxtec Analysers and Monitors

Teledyne  
AX300  
Oxygen Analyser

Maxtec Handi+

Teledyne  
MX300  
Oxygen Monitor

Maxtec UltraMax

Maxtec MaxO<sub>2</sub>

# Oxygen Sensors

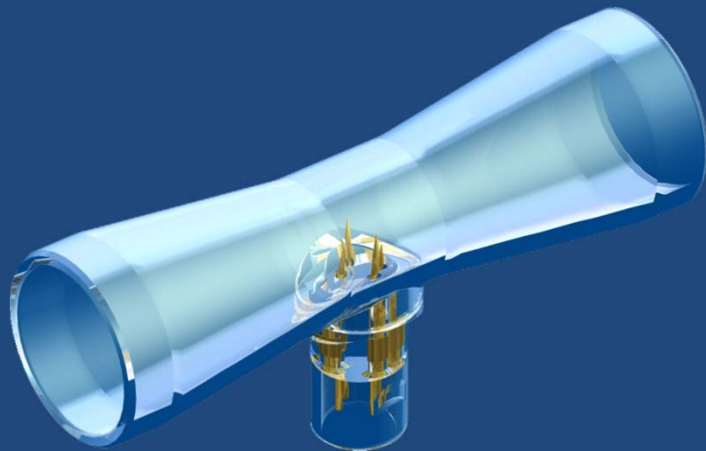

OEM and compatible oxygen sensors for use with most oxygen analysers, oxygen monitors, anaesthesia systems, ventilators, incubators, oxygen concentrators...

 VIAMED

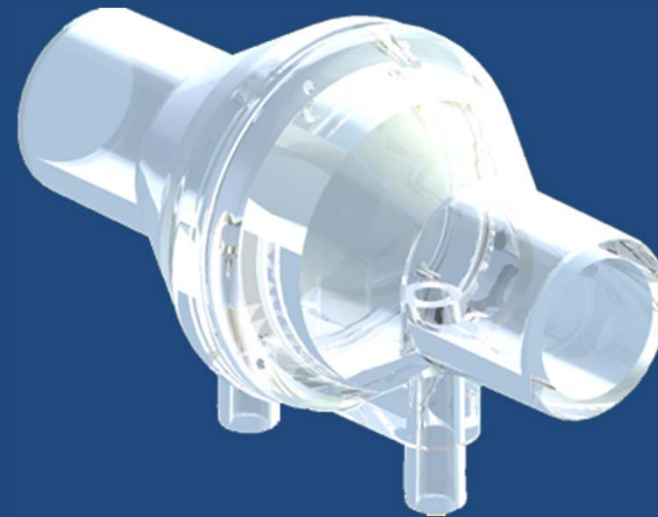

# SpiroTrue Flow Sensors

For flow measurement of gas delivered by anaesthesia systems and ventilators

**SpiroTrue A<sub>(PC)</sub>**

Hot-wire anemometric flow sensor  
For use with Dräger vents

**SpiroTrue H**

Differential pressure flow sensor for  
use with Hamilton ventilators

# Capnography

High performance capnography with  
either mainstream or sidestream measurement

VM-2500-M  
Mainstream  
Capnograph

VM-2500-S  
Sidestream  
Capnograph

# VersaStream Sampling Lines

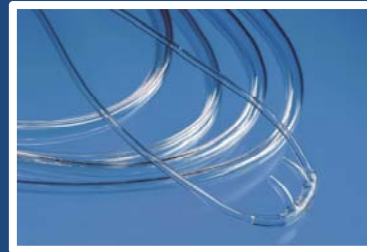

Versatile, lower cost, innovative solutions for sidestream monitoring

Nasal Prong  
Sampling Line

Nasal Cannula

Nasal/Oral  
Cannula

Airway Adapter  
Sampling Line

Available for use with...

Viamed/Masimo/PhaseIn

Respironics/Philips

Luer Lock Male

# Pulse Oximetry

Designed with most difficult conditions in mind

VM-2160  
SMARTsat

VM-2160

# Finger Pulse Oximetry

Fast and accurate measurement of SpO<sub>2</sub> and pulse rate, even in cases of low perfusion

VM-2101

VM-2103

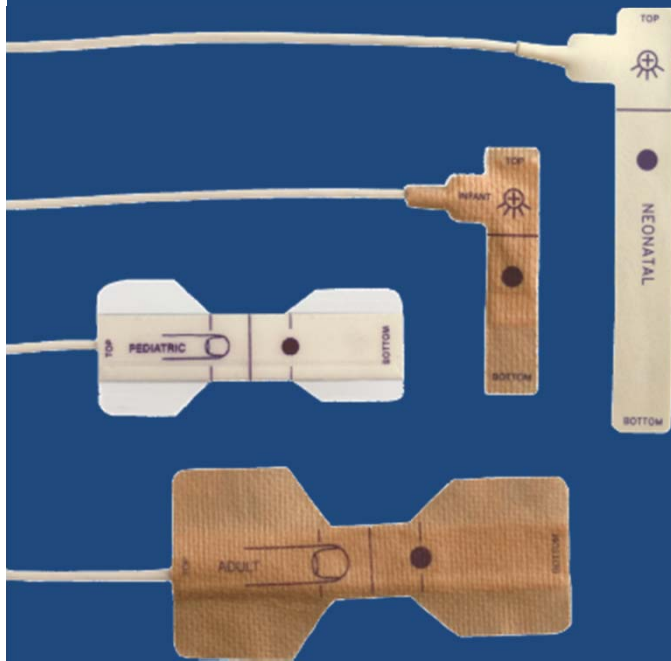

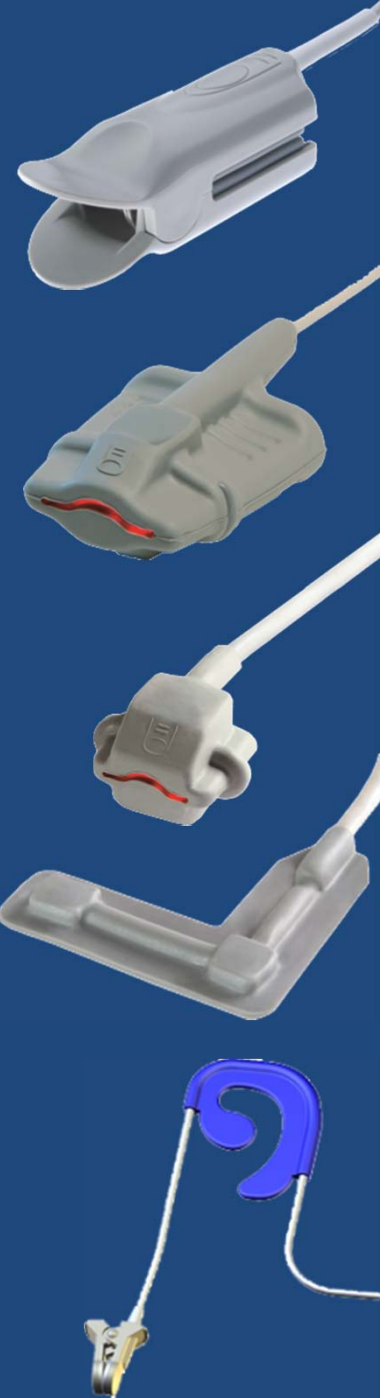

VM-2105 Grey and Orange

# Pulse Oximetry Sensors

Reusable and disposable pulse oximetry sensors and cables

The range includes compatibles for various manufacturers

# Nerve Stimulation

Peripheral nerve stimulator designed for use during anaesthesia providing a means of assessing, on demand, the depth or degree of muscle relaxation achieved during anaesthesia

# Infant Resuscitation

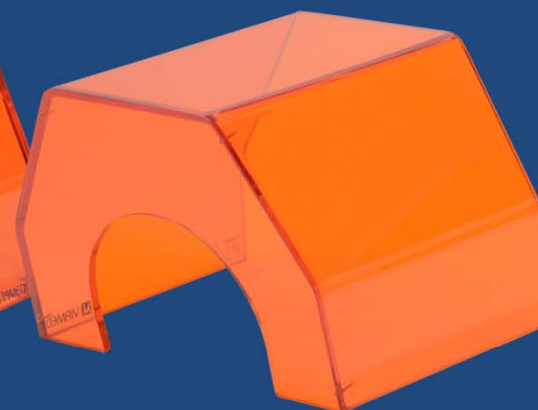

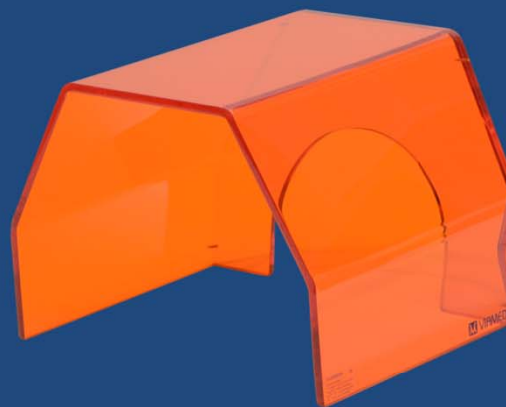

Provides essential  
equipment for safe  
and easy infant  
resuscitation

Cabinet component equipment  
also sold separately

# Oxygen Hoods & Phototherapy

Phototherapy Lightshields

EyeMax2 Phototherapy Eye Masks

Reusable Oxygen and  
Phototherapy Hoods

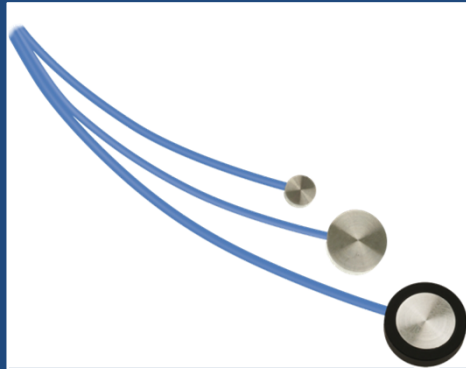

NeoMask Phototherapy Eye Masks

# Temperature Probes

Autoclavable Temperature Probes for accurate monitoring of body surface and core temperatures

Skin/Surface

Oesophageal/Rectal

# Veterinary Monitors

Innovative products developed for Veterinary medicine, utilizing the latest technologies

VM-2500-M  
Mainstream  
Capnograph

VM-2500-S  
Sidestream  
Capnograph

VM-2160 Hand  
Held Pulse  
Oximeter
