Notes

Hi Derek

Thanks for your time on Tuesday I found it very interesting , can you let me know if I am anywhere near with these first parts, I wil start on the other parts next once I have taken them apart, Prices inclusde all plating and polishing and delivered to you.

If we succeed in getting this job would it be possible to come down or for one of your people to come to us to show us how you clean the parts and what solutions you use etc.

As discusse I would be willing to do 5 parts as a first order to make sure you are happy with the quality.

Best regards

Martyn
