Dear «UPOSITION»,

Microstim DB3 Supramaximal Nerve Stimulator

Peripheral nerve stimulator designed for use during anaesthesia

The guidelines set by The Association of Anaesthetists of Great Britain and Ireland (*"Recommendations for Standards of Monitoring During Anaesthesia and Recovery", 2015; December 2015*) state that "a measure of neuromuscular blockade, using a peripheral nerve stimulator, is essential for all stages of anaesthesia when neuromuscular blockade drugs are administered."

Viamed has been manufacturing nerve stimulators for over 30 years. The **Microstim DB3 Supramaximal Nerve Stimulator** provides a means of assessing the depth of muscle relaxation achieved during the induction, maintenance and recovery of anaesthesia.

The Microstim DB3 is low cost, easy to use and compact and has the flexibility of having four convenient modes of stimulation to select from:

- **Train of Four**
- **Double Burst Stimulation**
- **Post Tetanic Count**
- **Continuous 1Hz**

Part Number: 2510000
£185.00 (exc. VAT)
FREE carriage

Please find enclosed our leaflet for the Microstim DB3. However, should you require any further information on this product please do not hesitate to contact a member of our sales team on 01535 634542, between 09:00 and 17:30, or email info@viamed.co.uk.

Yours sincerely

Catrin
