

AlcoTrue® P

Technical specification

AlcoTrue P – technical specification

• Principle of measurement	long life electrochemical sensor with high precision intelligent microprocessor sampling system
• Breath sample	controlled blow volume and time, default 1,2L
• Measurement modes	Active mode Fast mode Passive mode Mouth alc. mode Scanning mode
• Measurement range	
Breath alcohol concentration (BrAC)	0.00 to 2.6 mg/L (Ethanol mass per breath volume at 34°C and 1013 hPa.)
Blood alcohol concentration (BAC)	0.00 to 5.50 % (Ethanol mass per blood volume resp. mass at 20°C and 1013 hPa)
This data is given using a conversion factor of 2100:1 between breath - and blood alcohol concentrations. Other conversion factors are available upon request.	
• Ambient Conditions	
For operation	-5 to 50°C 10 to 100 % R.H. (non-condensed) 600 bis 1400 hPa
For storage	-20 to 65°C (-4 to 149°F) 10 to 100 % R.H. (non-condensed) 600 to 1400 hPa
• Measurement accuracy / Reproducibility with an ethanol standard	
0 to 0.476 mg/L	0.008 mg/L
> 0.476 mg/L to 1mg/L	4 % of measured value
> 1 mg/L	8 % of measured value
0 to 1‰	0.017 ‰
> 1‰ to 2‰	4 % of measured value
> 2 ‰	8% of measured value
• Sensitivity drift of measured value/month	
Typically 0.5%	
• Ready for operation	After switching on approximately 6 seconds
• Applied part (Mouthpiece)	Hygienic mouthpiece (Type "S") with in build non-return valve and water trap
• Calibration interval	6 Months with automatically reminder

• Calibration type	Wet gas (default) Dry gas Flow calibration												
• Result format and unit	digital in green/yellow/red and in mg/L BrAC (default) or in ‰ BAC. Other units/ limits can be selected via authorized services

• Max power consumption of device by Li-ion charging	600mA, 5V DC												
• Device Interface	USB												
• Hardware test procedure	automatically self-test procedure at device start up												
• Warnings information	acoustic and visual (configurable) Different sound/color indication by negative and positive measurement result												

- **Device adjustments** PIN protected service menu access
- **Degree of Protection** IP 43 (IPX3 protection against spraying water acc IEC 60529)
- **Auto Power OFF** After 3 minutes
- **Display** 1,77" colour display
- **Data memory** 35 000 tests results with date/time, calibration status
- **CE-marking** 2004/108/EC (EMC electromagnetic compatibility)
- **Standards**
