|    |  |   |  |
|----|--|---|--|
| 5  | Is the need for equipment, plant, services etc. identified and acted upon where necessary.                         | Weekly meetings & Issues                            |  |
| 6  | Has the basic working infrastructure has been planned with conformity to requirements in mind.                     | Yes HES ISO   |  |
| 5  | Check validations of unknown process control criteria.   | No unknown  |  |
| 6  | Are there adequate mechanisms in place for the identification, handling etc. of product through all stages?        | Yes Bar codes of product and location               |  |
| 7  | Are the controls in place to safeguard customer property adequate for full protection against loss damage etc.     | Bar codes/location/duckets                          |  |
| 8  | Is the process for monitoring and measurement of product in place at all stages throughout the production process? | Yes Bar codes of product and location               |  |
| 9  | Is the process for control of measuring equipment adequate for the monitoring of product verifications?            | Yes Bar codes of product and location / Calibration |  |
| 10 | Are validity processes in place to safeguard product integrity?  | ?   |  |

**D PRODUCT REALISATION**

|   |   |                                     |  |
|---|---|-------------------------------------|--|
| 1 | Is the planning process for the realisation of product undertaken at the relevant stages?   | Design process/<br>Exhibitions etc. |  |
| 2 | Does planning identify documentation, testing and other such activities as required, and are all appropriate records are maintained.                    | Yes Intrastats                      |  |
| 3 | Are all customer requirements being addressed, including statutory and regulatory, and that the capabilities are identified to meet those requirements. | Opera/Goldmine                      |  |
| 4 | Are mechanisms in place to review all customer requirements prior to any commitments by the organisation.   | Contract review<br>Opera/Goldmine   |  |
| 5 | Check that there are adequate arrangements for customer communications and feedback.  | Opera/Goldmine                      |  |
| 4 | Is collation and analysis of all relevant data determined and effective, and corrective actions identified.   | Non conformance/<br>Complaints file |  |
| 5 | Are these actions completed in a timely and adequate manner, and are these actions part of continual improvements.                                      | Non conformance/<br>Complaints file |  |
| 6 | Does the organisation have preventive measures in place to control potential non-conformities?  | Management meetings                 |  |
| 7 | Are all the above actions are reviewed adequately?  | Management meetings                 |  |

**E DESIGN & DEVELOPMENT**

|   |  |                               |  |
|---|--|-------------------------------|--|
| 1 | Are procedures in place to ensure adequate planning of product design, and that all relevant stages are identified?                                      | Design procedures             |  |
| 2 | Are the interfaces and assignments of responsibilities identified?   | Identified at start of design |  |
| 3 | Are all input requirements determined, and documentation identified?   | Identified at start of design |  |
| 4 | Are all output requirements in such a format, that verification against inputs is applicable and appropriate, and that Fitness-for-Purpose is validated. |                               |  |
| 5 | Are actions recorded against verifications completed in a timely and responsible manner?   | ?                             |  |
| 6 | Are validation processes in place, and that they are determined in accordance with the relevant requirements.  | Validation in Technical file  |  |
| 7 | Are design changes recorded and all the relevant information filed in the appropriate places.  | Technical file                |  |

**F PRODUCT PROVISION**

|   |  |   |  |
|---|--|---|--|
| 1 | Are supplier profiles adequate and appropriate for the organisation, and are they monitored, for their ability to provide the requirements, and is this monitoring controlled. | Intrastats suppliers efficacy recorded at management meetings |  |
| 2 | Is all the required information necessary forwarded to suppliers in the correct format, and that is this authorised prior to order placement.                                  | Countersigned by a director                                   |  |
| 3 | Are goods and services received, correct to the requirements stipulated.   | Goods in  |  |
| 4 | Are the provisions available, suitable for control of production and service, including procedures and equipment etc.  | Reviewed at weekly meetings                                   |  |
| 5 | Check validations of unknown process control criteria.   | N/A   |  |
