Hi Jessica

Just had another call with JFD/Divex and to ensure that the sensors fit across their range of equipment, they want to know if the following is possible:

	Existing actual tooling dimensions (mm)	Maik's latest drawing, supplied 29 th March	JFD requested dimensions	Notes
Sensing end outer diameter	27.6 +/- 0.2	27.0 +/- 0.2	27.2 +/- 0.2	
PCB end outer diameter	27.4 +/- 0.2	27.4 +/- 0.2	27.6 +/- 0.2	
Overall height	20.5 +/- 0.2	20.5 +/- 0.2	20.4 +/- 0.2	The maximum they can accept is 20.6, the lower value is not important for them

If so, I'll get them to sign off the dimensional changes and we can process the first order.
