Morning Steve,

I can confirm that the mag signature has been lowered. We expect the sensors to come in well below. The spec also has the confirmed dimension within, so no need for Mini to confirm at this stage.

Best regards

Duncan

Hi Duncan

I have just had a quick look at your specifications. It looks like the magnetic signature limit has been lowered from <5.0nt to <3.5nt.

Tomorrow I'll check all the specifications and update our production specifications for the sensor type.

Thank you Duncan, we still need Mini to confirm the dimensions. I'm travelling on business at the moment, but I'll follow up with Mini tomorrow.

Steve

Good afternoon Steve,

Please see our new purchase order attached. Please send your acknowledgement to [purchaseordersUK1@jfdglobal.com](mailto:purchaseordersUK1@jfdglobal.com) confirming price and delivery.

As discussed JFD will support VST with regards to access to our mag testing facility, to range the raw materials you have on hand just now as a baseline for indicative purposes. Again this support will be extended upon delivery of the cathodes, wires and PCB's.

Looking forward to getting a date in the diary where we can visit your factory and conduct our final approval audit

Best regards

Duncan
