

Transition of Viamed products from CE certificate **CE 540537** to **4026GB410171201**

We are consolidating technical files in order to rationalize costs and procedures, as well as meeting the requirements of the Medical Devices Directive (MDD) and the implementation of the Medical Devices Regulation (MDR).

The products listed below are still branded as Viamed products, but the technical files are being solely maintained by our development partners at Bluepoint Medical. Therefore, the products have transitioned to the CE certificate now issued by Bluepoint Medical. Viamed part numbers and model names remain the same.

Viamed CE certificate CE540537	Bluepoint Medical CE certificate 4026GB410171201
Breathing gas exchange monitors	Monitors for breathing gas exchange
Breathing gas exchange sensors	Gas sampling lines
Flow sensors	Gas flow sensors
Temperature probes	Temperature probes
Pulse oximeter monitors	SpO2 sensors
Pulse oximeter sensors	SpO2 sensors

Other Viamed branded and manufactured products are covered by separate CE certification
