June 2019

Dear Sir or Madam,

The **400-AC** Autoclavable Temperature Probes range from Viamed

Hewlett Packard
Philips

The **400-AC** complete series of **autoclavable** temperature probes for the accurate measurement of body surface & core temperatures in neonates, paediatrics and adults, are available from Viamed.

Not only are the **400-AC** temperature probes compatible for use with most leading temperature monitoring manufacturers including **Philips and their Intellivue series monitors** but you will also benefit from:

- **A wide choice**
Adult, Paediatric and Neonatal sizes available
- **Minimal risk of cross infection**
Autoclavable at 134°C
- **Minimal risk of allergic reactions**
Latex-free and biocompatible
- **Accurate placement of the sensor**
Extremely robust yet flexible
- **Compliance with the new MDD, EC 60601-1-2:2014 4th edition**

FREE DELIVERY

*All prices quoted include standard carriage free of charge, making it simpler for you to order.

Please find enclosed a leaflet detailing the full range of autoclavable temperature probes currently available through Viamed. Should you be unable to find the product you require or would like further information, please do not hesitate to contact a member of our sales team on 01535 634542 or visit our cross reference www.viamed.co.uk/probesxref.

Yours sincerely
