CERTIFICATE

We are pleased to provide you the following information regarding the compliance of the following polymer product(s) with respect to the "Restriction of the use of certain hazardous substances in electrical and electronic equipment" (RoHS) Directive.

EXXONMOBIL HMA016 (EX SAUDI ARABIA)
EXXONMOBIL HMA035 (EX SAUDI ARABIA)
EXXONMOBIL HTA001HD (EX SAUDI ARABIA)
EXXONMOBIL HYA600 (EX SAUDI ARABIA)
EXXONMOBIL LD150AC (EX EUROPE)
EXXONMOBIL LD150AC (EX SAUDI ARABIA)
EXXONMOBIL LL6201XR (EX SAUDI ARABIA)

This/these polymer grade(s) is/are in compliance with the relevant heavy metals and flame retardant requirements of the following regulation:

- EU 2002/95/EC Directive (Article 4) Prevention on Restriction of the use of certain hazardous substances in electrical and electronic equipment, as amended by the Commission Decision 2005/618/EC of 18 August 2005.

Indeed, the following substances:

- * Heavy metals: Lead, Cadmium, Mercury & hexavalent Chromium
- * Flame retardants: Polybrominated biphenyls (PBB) & Polybrominated diphenyl ethers (PBDE)

have not been "intentionally introduced" in the above polymer grade(s) and as a result, their concentration does not exceed

- * 0.1 percent by weight for Lead, Mercury, hexavalent Chromium, Polybrominated biphenyls (PBB) & Polybrominated diphenyl ethers (PBDE)
- * 0.01 percent by weight for Cadmium

The fact that these substances are not intentionally introduced into this/these polymer grade(s) does not exclude that trace levels of these substances may be unintentionally present or may result from the specific characteristics of the raw materials and of the polymerisation process used for the manufacturing of the above polymer grade(s).

VALIDITY DATE:

This document is valid until the next change of relevant legislation with a maximum of one year as of the date of issue of the certificate.
