## RE: ISO 9001:2015 Climate Change Considerations

Inbox x

**DIVESOFT Office**

to Steve, Gabriela

Hello Steve,

I am sending answers to your questions:

-----  
Ref. **Oxygen Sensor type 22D**

Does Divesoft consider climate change to determine if there are or not relevant issues that will need to be addressed? **Did not understand the question**

Do you operate a Quality Management System such as ISO 9001:2015? **Yes, Module D, EU Directive 2016/425**

If so, may I request a copy of your certification. **Module D, EU Directive 2016/425**  
<https://www.divesoft.com/en/support/ccr-liberty-rebreather/additional-documents>

Again, if you operate a Quality Management System, can you please advise who is the appropriate contact within your company.

**Name:** Tomas Trnka  
**email address:** [cz.info@divesoft.com](mailto:cz.info@divesoft.com)

Has Divesoft determined external and internal issues that are relevant to its purpose and that affect its ability to achieve the intended result(s) of its Quality Management System? **YES**

Does Divesoft have any relevant requirements? **YES**

Which of these requirements will be addressed through your Quality Management System? **YES**

Do you have any existing climate change or environmental policies? If so, may we please have a copy for our QMS files?
