	<p>a) quality objectives and requirements for the product;</p> <p>b) the need to establish processes and documents (see 4.2.4) and to provide resources specific to the product, including infrastructure and work environment;</p> <p>c) required verification, validation, monitoring, measurement, inspection and test, handling, storage, distribution and traceability activities specific to the product together with the criteria for product acceptance;</p> <p>d) records needed to provide evidence that the realization processes and resulting product meet requirements (see 4.2.5). The output of this planning shall be documented in a form suitable for the organization's method of operations.</p> <p>NOTE Further information can be found in ISO 14971.</p>	
<p>Viamed Ltd ISO13485:2016 7.4.1</p>	<p><b>Purchasing process</b> The organization shall document procedures (see 4.2.4) to ensure that purchased product conforms to specified purchasing information. The organization shall establish criteria for the evaluation and selection of suppliers. The criteria shall be:</p> <p>a) based on the supplier's ability to provide product that meets the organizations' requirements;</p> <p>b) based on the performance of the supplier;</p> <p>c) based on the effect of the purchased product on the quality of the medical device;</p> <p>d) proportionate to the risk associated with the medical device.</p> <p>The organization shall plan the monitoring and re-evaluation of suppliers. Supplier performance in meeting requirements for the purchased product shall be monitored. The results of the monitoring shall provide an input into the supplier re-evaluation process.</p> <p>Non-fulfilment of purchasing requirements shall be addressed with the supplier proportionate to the risk associated with the purchased product and compliance with applicable regulatory requirements.</p> <p>Records of the results of evaluation, selection, monitoring and re-evaluation of supplier capability or performance and any necessary actions arising from these activities shall be maintained (see 4.2.5).</p>	<p><i>Doc index</i> <i>Roles +</i> <i>Titles</i> <i>Supplier</i> <i>Review</i></p>
<p>Viamed Ltd ISO13485:2016 7.4.2</p>	<p><b>Purchasing information</b> Purchasing information shall describe or reference the product to be purchased, including as appropriate:</p> <p>a) product specifications;</p> <p>b) requirements for product acceptance, procedures, processes and equipment;</p> <p>c) requirements for qualification of supplier personnel;</p>	<p><i>Procedures</i> <i>Supplier</i> <i>Review</i></p>

	<p>d) quality management system requirements. The organization shall ensure the adequacy of specified purchasing requirements prior to their communication to the supplier. Purchasing information shall include, as applicable, a written agreement that the supplier notify the organization of changes in the purchased product prior to implementation of any changes that affect the ability of the purchased product to meet specified purchase requirements. To the extent required for traceability given in 7.5.9, the organization shall maintain relevant purchasing information in the form of documents (see 4.2.4) and records (see 4.2.5).</p>	<p><i>Doc index Purchasing System Roles + titles</i></p>
<p>Viamed Ltd ISO13485:2016 7.4.3</p>	<p><b>Verification of purchased product</b> The organization shall establish and implement the inspection or other activities necessary for ensuring that purchased product meets specified purchasing requirements. The extent of verification activities shall be based on the supplier evaluation results and proportionate to the risks associated with the purchased product. When the organization becomes aware of any changes to the purchased product, the organization shall determine whether these changes affect the product realization process or the medical device. When the organization or its customer intends to perform verification at the supplier's premises, the organization shall state the intended verification activities and method of product release in the purchasing information. Records of the verification shall be maintained (see 4.2.5).</p>	<p><i>Purchasing System Supplier Review Roles + titles</i></p>
<p>Viamed Ltd ISO13485:2016 7.5.1</p>	<p><b>Control of production and service provision</b> Production and service provision shall be planned, carried out, monitored and controlled to ensure that product conforms to specification. As appropriate, production controls shall include but are not limited to: a) documentation of procedures and methods for the control of production (see 4.2.4); b) qualification of infrastructure; c) implementation of monitoring and measurement of process parameters and product characteristics; d) availability and use of monitoring and measuring equipment; e) implementation of defined operations for labelling and packaging; f) implementation of product release, delivery and post-delivery activities. The organization shall establish and maintain a record (see 4.2.5) for each medical device or batch of medical devices that provides</p>	<p><i>Roles + titles management Review Doc index</i></p>

	<p>traceability to the extent specified in 7.5.9 and identifies the amount manufactured and amount approved for distribution. The record shall be verified and approved.</p>	
<p>Viamed Ltd ISO13485:2016 7.5.10</p>	<p><b>Customer property</b> The organization shall identify, verify, protect, and safeguard customer property provided for use or incorporation into the product while it is under the organization's control or being used by the organization. If any customer property is lost, damaged or otherwise found to be unsuitable for use, the organization shall report this to the customer and maintain records (see 4.2.5).</p>	<p><i>Doc index Procedure Barcode System</i></p>
<p>Viamed Ltd ISO13485:2016 7.5.8</p>	<p><b>Identification</b> The organization shall document procedures for product identification and identify product by suitable means throughout product realization. The organization shall identify product status with respect to monitoring and measurement requirements throughout product realization. Identification of product status shall be maintained throughout production, storage, installation and servicing of product to ensure that only product that has passed the required inspections and tests or released under an authorized concession is dispatched, used or installed. If required by applicable regulatory requirements, the organization shall document a system to assign unique device identification to the medical device. The organization shall document procedures to ensure that medical devices returned to the organization are identified and distinguished from conforming product.</p>	<p><i>Barcode System Calibration System Tech files QA system</i></p>
<p>Viamed Ltd ISO13485:2016 8.2.4</p>	<p><b>Internal audit</b> The organization shall conduct internal audits at planned intervals to determine whether the quality management system: a) conforms to planned and documented arrangements, requirements of this International Standard, quality management system requirements established by the organization, and applicable regulatory requirements; b) is effectively implemented and maintained. The organization shall document a procedure to describe the responsibilities and requirements for planning and conducting audits and recording and reporting audit results. An audit program shall be planned, taking into consideration the status and importance of the processes and area to be audited, as well as the results of previous audits. The audit criteria, scope, interval and methods shall be defined and recorded (see 4.2.5). The selection of auditors and conduct of audits shall ensure</p>	<p><i>Doc index Route Map management Renew Roles + tasks.</i></p>
